RAIN, HAIL, WIND SWEEP OVER FOUR SOUTHERN STATES

Kentucky, Tennessee, Mississippi and Arkansas
Sustain Loss

Crops, Tobacco Beds and
Fruit Injured.

RIVER INTERESTS SUFFER.

New Orleans, April 16.—Jackson, capital of Mississippi, is completely cut off today. Wires are down as the result of a storm which swept through Mississippi, Tennessee and part of Arkansas and Kentucky. It is believed Jackson suffered greatly.

Hardly a railroad escaped. There were several without yesterday. The damage to crops is immense. It is reported that thousands of acres of cotton are inundated and many farms flooded. It is said thousands of cattle are destroyed. All bridges are washed out.

The second storm swept over Mississippi, Louisiana, Arkansas and Tennessee this morning. Several deaths are reported and enormous damage.

Wire communication at Jackson is partly restored. Reports say that while the cyclone did enormous property damage, no lives were lost there. Three were killed in outlying districts. There is fear that later reports will bring the total higher. Reports from the Louisiana coast say several parties of fishermen are missing. It is feared some are lost. The property damage is large. The storm has subsided.

Freight Ditched.

Princeton, Ky., April 16. (Special.)—A freight train on the Evansville division of the Illinois Central is in the ditch at Cedar as the result of a washout. Nobody was killed or injured. There was heavy damage by the storm.

Bridge Washed Out.

Hard Money, Ky., April 16. (Special.)—The bridge over Sun creek was washed out and many miles of fence destroyed by the flood last night.

In Carlisle County.

Hardwell, Ky., April 16. (Special.)—No damage was done in Hardwell and vicinity last night by the storm. There was a heavy rain, but no hail. Hail is reported in Cunningham, which is between Hardwell and Paducah. Railroads are running and general traffic is not interfered with seriously by the swollen creeks. Yesterday lightning struck the stock barn of Newton Trumble and it was completely destroyed by fire. No stock was in the barn at the time, however.

At Murray.

Murray, Ky., April 16. (Special.)—Murray was visited last night by a heavy rain, but no hail fell. The roads were washed considerably, but no serious damage is reported. All of the creeks are swollen.

Lightning's Work.

Brookport, Ill., April 16. (Special.)—Lightning struck the barn of Walter Medaker, north of Brookport, last night and completely destroyed it. Most of the stock was removed from the barn, but implements and hay were destroyed.

Local Damage.

In the county the damage was heavy to the bridges. John Thompson, county road supervisor, estimates that it will take about \$1,500 to replace the bridges. About a dozen bridges were swept away by the water last night, and this morning some were on roads and others in fields. The suspension bridge over Little Maase creek was washed into the road, while numerous smaller bridges were misplaced. Some of the bridges are old, and probably will have to be replaced with new bridges.

In the vicinity of Eden's hill the downpour of rain seems to have been the heaviest. Land was inundated that the oldest inhabitants could not remember of ever being covered with water. The hail fell heavy, and in many homes window panes were broken by the large hail stones. Trees were stripped of the green foliage, and this morning it was possible to rake up leaves as in the fall of the year.

Serious damage was done to tender garden produce. Marketed lost much glass, which was used to protect tender plants. The hail fell in such quantities as to crash through the glass. George Heyer, a gardener

Revenue Officers and Parent on Trail of Ed Watson, Who Elopes With Delia Smith From Dycusburg

Couple, Who Were Once
Caught Here, Are Supposed
to be in Memphis—
Night Riders Suits.

Dycusburg, Ky., April 16. (Special.)—Revenue officers and an irate parent are in pursuit of Ed Watson, supposed to be a married man, and Delia Smith, the pretty young daughter of William Smith, a prosperous farmer of this place. They are supposed to be in Memphis. Watson left several days ago, his absence being discovered when Deputy United States Marshal Elwood Neal, of Paducah, came here with a warrant for him. The girl boarded a train at Kuttawa two days ago. Watson is also wanted in Missouri. It is said, where he is supposed to have a wife and two children.

The couple was caught in Paducah several weeks ago. The girl, when they got off the boat, eloped her father on Broadway and caught a Union station car on which Watson already had a seat. They made their way to the station, but were recaptured about two minutes before they would have gotten away on a train. The girl declared then she would go with Watson. The girl's father is a man of considerable prominence in his home community.

Suit May Be Settled.

Edwards, Ky., April 16. (Special.)—Some of the defendants named in Laura Toomey's amended petition for damages have settled. The new defendants, among whom is former County Attorney Ward Headley, of Caldwell county, are named in an amended petition that has been filed in the federal court by Mrs. Laura Toomey, who is seeking damages to the extent of \$51,000 for alleged night rider raids at her home in Edwells over a year ago. The new named defendants are: Ward Headley, A. C. Ramey, E. L. Gresham, Elwood Gresham, S. B. Glen, George C. Cunningham, W. H. Cunningham, A. A. Sexton, W. S. Dumas and Lee Hayes.

The night rider suits will come up for trial Monday morning when federal court will be convened at Paducah by Judge Walter Evans, of Louisville. They were continued from the last term. Mrs. Toomey, who is the daughter of Judge C. W. Tucker, of Edwells, Lyon county, is now a resident of Metropolis, Ill. The attorney for her is Krone, Huttelle and Fleece.

At Kuttawa.

Kuttawa, Ky., April 16. (Special.)—Boulders were washed down the steep hills surrounding Kuttawa last night by heavy rains, and in many places the streets are blocked. It was the heaviest rain in the memory of the oldest inhabitants. The water did considerable damage.

Thoroughbreds Killed

Louisville, Ky., April 16. (Special.)—During the storm this morning lightning killed three thoroughbreds at Churchill Downs.

FORMER SHERIFF HOLLAND IS DEAD

WILL BE BURIED TOMORROW
AFTERNOON IN OLD FELLOWS
CEMETERY.

Former Sheriff W. H. Holland, better known as Col. Dick Holland, died last night at 11 o'clock at his home, 2225 Jefferson street, after a lingering illness. He recently returned from Hot Springs, where he went in the hope of benefiting his health. He was born in Christian county 53 years ago, but spent most of his life in Metracken county, which he served as sheriff and sheriff's deputy. He was one of the best known and most popular men in the county. Besides his wife, he leaves the following sisters and brothers: Mrs. J. A. Young, Paducah; Mrs. M. C. Graham, Lebanon; Mr. T. E. Holland, of Paducah; and D. S. Holland, of Fairport.

The funeral will take place tomorrow morning at 10 o'clock at the residence, the Rev. M. E. Dodd, officiating. The burial will be in the Old Fellows cemetery near McKendree church, tomorrow afternoon at 2 o'clock. Following are the pallbearers: J. C. Piper, S. G. Givens, E. M. Willis, E. G. Boone, J. E. Rogers and James Glatner.

BOAT STAYS DOWN
Tokio, April 16.—Lieutenant Sakuma and twelve members of the crew of a submarine boat, believed to have perished off Pishima, according to reports today. The boat was practicing to dive yesterday and failed to return to the surface.

RAILROADS ARE ALL BLOCKADED

PADUCAH HAS BEEN CUT OFF
FROM TRAIN SERVICE
NEARLY ALL DAY.

Practically isolated from the world as far as railroad traffic is concerned, Paducah experienced an unusual condition today, owing to the heavy storm last night. Mail trains from the east are delayed many hours, while all north freight trains have been abandoned. The last train from Louisville due at 3:52 o'clock had not arrived this afternoon, while the fast passenger train, No. 102, from the south did not arrive until late this afternoon. It will take many hours to make the concrete bridge at Little Cypress passable, and it is probable that the passengers of the last passenger train will be transferred. They may arrive tonight. Checks for the payment of the Illinois Central railroad employees did not arrive until late this afternoon.

Passengers Storm Bound.

Calvert City, Ky., April 16. (Special.)—2:15 o'clock—Many long late fast passenger train No. 103 of the Illinois Central from Louisville arrived here this afternoon and probably will not reach Paducah until many hours owing to the washout of the concrete bridge at Little Cypress. The trip has been filled with exciting incidents as several miles of track were washed out and it was only after strenuous efforts that the train reached Calvert City.

A substitute agent, whose name could not be learned at Daniel Boone, a small station west of Dawson Springs, probably saved the lives of many passengers early this morning when he stood out in the storm over an hour to flag the fast passenger train. He discovered that the track and roadbed was washed away, and succeeded in flagging the train, despite the fact that the storm was raging.

In Police Court.

Breach of peace, Dan Sweeney, fined \$5; Johnnie Johnson, left open Minnie Crenshaw, continued until Monday; Hattie Harris and Bona Brown, continued until Monday. Breach of ordinance, Henry Robertson, fined \$50.

Deaths Filed.

Cyrene Hiram to Mrs. Lizzie Owen and Pearl Burnett, property at Fifteenth and Trimble streets, \$1,500; Mamie Wheeler and C. K. Wheeler to J. A. Wafford, property at the northwestern intersection of Guthrie avenue and 11 street, \$325.

SAFE BLOWERS SECURE \$2,000 AT LONDON, KY.

London, Ky., April 16. (Special.)—Thieves blew the postoffice safe and got \$2,000.

Requisition Issued

Frankfort, Ky., April 16. (Special.)—Governor Cox has issued a requisition on Pennsylvania for the return to Paducah of Armond Devillers on the charge of grand larceny from his wife, a Louisville performer. He is under arrest at Philadelphia.

Detective Moore has gone after him.

BACKWATER DRIVES OUT OCCUPANTS OF HOUSES

Buckwater on South Ninth street forced Norton and Caldwell streets forced occupants of houses to desert their abodes last night. The water entered the houses and covered the floors to a depth of several inches. An old wooden sewer on Caldwell street proved inadequate to carry off the water, and the street resembled a canal.

INSTALLATION OF DR. H. W. BURWELL BY PRESBYTERY

Will Occupy Both Services at
First Presbyterian To-
morrow.

Paducah Presbytery Organ-
ized This Morning.

SERMON BY DR. C. N. WHARTON.

The Paducah Presbytery of the Presbyterian church today examined and accepted Dr. H. W. Burwell as pastor of the First Presbyterian church, Seventh and Jefferson street. The examination was oral and conducted by the Rev. Thomas Cummins, of Henderson. The questions dealt with theology and government of the Presbyterian church.

Tomorrow morning at 10:15 o'clock Dr. Burwell will be ordained and installed as pastor of the church in regular form. The Rev. Cummins will fill the pulpit.

The Presbytery convened last night at 7:45 o'clock, the Rev. C. N. Wharton, of Morganfield, delivering the opening sermon. On account of the inclement weather and the small attendance the business of electing a moderator was postponed until 9 o'clock this morning when the Presbytery met again. A recess was taken at 12:30 o'clock until 2:30 o'clock this afternoon. The meeting will be adjourned at 5 o'clock tonight when a Home Mission session will be conducted.

J. K. Wood, of Marion, was elected moderator this morning after the session had been called together by Dr. Wharton. The next business was the election of C. H. Skinner, of Morganfield, as temporary clerk. He took the place of the Rev. L. Humphreys, of Henderson, the stated clerk of the assembly. The delegates and ministers were noted and the Rev. Cummins was chosen to exhort in Dr. Burwell. The examination was brief. A letter of admission to the presbytery from the New Orleans, La., Presbytery was received as credentials from the new pastor. An order was then made for Dr. Burwell's installation tomorrow morning. Dr. Cummins will preside at the service and deliver the sermon, having charge of all work. His subject will be "Faith."

At the conclusion of the session this morning Dr. Burwell was given authority of an evangelist in bringing members of the disbanded Second Presbyterian church into the First church. This was done at his own request. Dr. Burwell said since the Second church disbanded eight years ago many members could not give letters from the church as the records could not be found. He said he believes there are over 100 people that could be brought into the First church in this manner, and efforts will be made to locate them and admit them with a letter from the Presbytery. It will not be necessary for a second confession.

Other business transacted this morning was of a routine nature and of little public significance. One important report read by Dr. Wharton, of Morganfield, was that relating to foreign missions. The report showed a decided increase in the donations from the different churches.

This afternoon commissioners to the synod at Louisville will be elected. All the delegates and ministers in attendance today were the guests of Dr. Burwell at the noon hour meal at the church manse adjoining the church.

It was announced in the session this morning that the Rev. George F. Mason, of Marion, would preach at the Kentucky Avenue Presbyterian church tomorrow morning and the Rev. L. Humphreys will preach at the same hour at the Broadway Methodist church.

Tonight the Rev. L. O. Spencer will deliver the charge to the pastor and the Rev. Humphreys will deliver the charge to the congregation. Delegates in attendance are: C. H. Skinner, of Morganfield; James Campbell, Sr., of Paducah; C. W. Woodridge, of Henderson; H. K. Wood, of Marion and the Rev. Thomas Cummins, of Henderson; C. H. Wharton, of Morganfield and L. Humphreys, of Henderson. Others in attendance are the Rev. George F. Mason, of Marion and Burrell Hogg, one of the corresponding members of the Presbytery from Louisville. He is a mountain missionary.

Dr. Wharton's Sermon.

Are we submissive in the hands of God? This vital question was asked his congregation last night at the First Presbyterian church by the Rev. C. N. Wharton, of Morganfield, Ky., acting moderator, who delivered the opening sermon of the Paducah Presbytery last night.

He chose his text from Jeremiah,

American and British Warships Dispatched to China, As Native Uprising Threatens Foreigners

CADET DIES.
Annapolis, Md., April 16.—Midshipman Earl D. Wilson, injured in a football game last October, died at the naval hospital this morning.

XVIII. 6; and the same question was asked the house of Israel by the Lord.

Dr. Wharton compared God with the potter, and his people with the clay. God is the divine potter, he said, while man is the unattractive clay; God is the sculptor and man is the model. By his divine power and workmanship he makes us useful vessels, transformed from the clay of the earth. Are we willing to be made vessels of God and are we submissive to the chisel and the hammer?

It is an important question we should learn and one which we must answer, he said. Our lives are contrary to the command of God. We have ideas of what is right and wrong but most of us do not see the future; we are only looking at the present. If the clay becomes dark and stormy we worry, fret and complain and begin to look into the face of the Father.

It is our non-submissiveness that has caused the great human failure and hesitancy on our part that we are not made perfect vessels. Man is the only creature that rebels from God's authority. It is hard for us to understand it. Dr. Wharton said whatever method God may use, whether it be the hammer, chisel or turnace, we should undergo. It matters not what kind of clay we are for God can make us into perfect and beautiful vessels after His likeness. Give the Divine Potter a chance in our lives, was the closing thought of Dr. Wharton.

Aldrich Is Silent.

Washington, April 16.—Renewal of the rumor that Senator Aldrich will retire at the end of his term attracted interest today. Those acquainted with Aldrich's intentions say the matter is too delicate to discuss. Aldrich at home refused to affirm or deny the rumor.

GOOD WEATHER IN BUSINESS WEATHER BAD AT CLOSE.

Bank clearings this week \$711,161

Both retail and wholesale firms report a good week in business this week as reflected by the week's clearings. The rain today interfered with trade, and only the bravest of the shoppers ventured out, while the wholesale shipments were delayed, because of the delay in traffic caused by the storm last night. Freight business with the railroads in Paducah has been unusually heavy this week, and the yards have been congested. Every available locomotive has been used to keep the freight on the move. Only a little tobacco has been moving as the crop has about been sold.

Comes to Her Husband But Finds Him Dead

Seated by an open car window at Princeton this morning, Mrs. T. S. Stone, who was returning from Louisville to Paducah, learned from over-hearing two trainmen talk, that her husband was crushed to death in the north yards in this city last night by a freight train. She became hysterical, but was comforted by passengers telling her that her husband was only injured. The train is delayed at Calvert City, and probably will not reach Paducah until night. A pathetic incident is that Mrs. Williams, Hannsborough, wife of an Illinois Central conductor, is on board the train en route to Sheffield, Ala., to attend the bedside of her dying sister. Mrs. Stone comforted her on the trip, before she learned the sad news concerning her own husband.

Stone was an engine foreman in the north yards at night, and last night was working with a string of cars on the main line between Kentucky avenue and Washington street. The drawheads on two cars were broken, and the two cars were chained together. The chain broke, and two cars broke away. Stone stepped between the cars to connect the trails when two cars rebounded. The cars caught his chest and he was crushed so that he lived only about three minutes after fellowworkmen reached him.

Stone had been an employee of the Illinois Central railroad for 14 years. Evansville was his home, but

London Papers Believe it is
More Extensive and More
Serious Than the Boxer
Movement.

London, April 16.—London papers fear the uprising in China is much more serious than it seems. They say the movement is general against foreigners, and is headed by the new student faction. They believe it is more serious than the Boxer uprising a decade ago. The British are preparing to take steps to protect foreigners and British interests in China. An official message received today that the Chinese government's order to the governor to put down the Houtan disorder had little effect as the Chinese government is suspected of secretly sympathizing with the rioters.

British Gunboat Arrives.

Pekin, April 16.—One British gunboat arrived at Pekin today. Owing to the number of rebels it was not docked. It is awaiting the arrival of three other gunboats.

American Cruiser Sent.

Amoy, China, April 16.—Under Washington orders the U. S. cruiser, Cleveland, started for Hankow, China today to aid in suppressing the foreign outbreak, if necessary.

Wed at Metropolis

Metropolis, Ill., April 16. (Special.)—Charles Bryant, railroad fireman, and Miss Nellie Roark, of Paducah, were married here at the home of Mrs. Garrett, Oscar Childers and Katie Oaks, of Hickory Grove, Ky., were married by Magistrate Liggett.

Suits Filed in Circuit Court.

County Attorney Sanders E. Clay filed seven suits against property owners, who it is alleged have failed to pay their 1909 tax. It was the first batch of suits filed. Suits were filed against C. A. Coleman property at 822 South Eleventh street; Sam Craig, property on Madison street; Claxton Pryor, property on South Fourth street; J. E. Morgan, three lots at 615 South Fifth street; Hiram Shindley, Sam Crossland and H. C. Crossland, property at 822 South Fourth street; J. S. Troutman, property on Hays avenue.

Hannah Boyater filed suit for divorce from her husband, John Boyater. The couple married in 1886 and separated in April, 1910. She alleges her husband is guilty of cruel treatment. She asks for the restoration of her maiden name, Hannah Williams.

Edna Troutman filed suit against Frank Troutman for divorce, alleging cruel treatment. The couple married December 24, 1908, and separated July 1, 1909. She asks that her maiden name of Rosa Owen be restored.

Strike Settlement Fails

Today the strike of the leatherworkers was still in force. Last night an effort to reach an agreement failed. The appearance of Henry Ottinger, secretary of the National Sundry Manufacturers' association, put a temporary damper upon negotiations. Both sides hope to settle the question soon.

Glavis' Attorney Scores Point
on Ballinger.

ALDRICH AND LA FOLLETTE.

Washington, April 16.—A bitter attack on the Smoot bill granting the states all the water power sites now under federal control, was made by the National conservation association today. It issued a bulletin, quoting Roosevelt's message and says the Smoot bill gives all the big interests, immunity from federal control and regulation, it said, puts the users of water power in the hands of the interests.

Glavis' Attorney Pleaded.

Washington, April 16.—Attorney Brandeis, representing Glavis, believes he made a strong point when he forced E. C. Finney, assistant secretary of the Interior, to admit that certain evidences, which were in the department, were not sent to the president when Ballinger submitted his report on the Cunningham coal land claim. Finney said when Ballinger filed his answer there were letters in the files, showing that Glavis was taking up the Cunningham cases with the Seattle district attorney. Brandeis asked if this evidence does not disprove the statement of Attorney General Wickesham that Glavis habitually procrastinated. Finney said he is unable to say. This evidence probably was not sent to the attorney general.

Opposition to LaFollette.

Washington, April 16.—Powerful opposition has been aroused to activity by Senator LaFollette's speech on the railroad bill and has begun a campaign to defeat him for renomination at the Wisconsin primaries September 6. LaFollette's friends are confident, but admit it will be a hard fight.

Federal Court Postponed

On account of his daughter's illness Judge Walter Evans will not open federal court here until Monday, April 25.

Entertains His Friends.

Richard Mason entertained a number of friends last evening at his home, 414 Sixth street. Music and games were enjoyed and delicious refreshments served. Dancing was enjoyed afterward. Owing to the inclemency of the weather those attending were confined to the house. Those present were: Misses Lottie Briggs, Bess Michael, Elizabeth Torrell, Dixie Hale, Edith Cope, Lola Bass, Bertha Carter, Mary Brown, Mary Kennedy and Rebecca Smith; Messrs. William and David Humphreys, John Kopf, Boyd Shelton, Charles Rhodes, Fred Jack, Armour Gardner, Pittman Harth and Richard Mason.

Daily Thought.

A determined heart will not be
counseled.—Spanish.

Have you ever observed how little
anyone who habitually prefaces his
remarks with "listen," has to say
worth listening to?

Predigested science and highly
seasoned fiction are both bad for the
mental health, and neither can be
offset by Proverb pills. The one
calls for no responsive effort and the
other excites an unnatural craving.

Credit should not be withheld from
the teachers and pupils of the colored
schools for the efforts they have put
forth in their desire for self-education,
and the manner in which they have
their own race has responded to their
calls. The two schools have raised
over \$600 this year for improving
their quarters, installing libraries
and purchasing pianos. The Lincoln
High school raised in five weeks
\$121 to be used for a physical and
chemical laboratory, which, supple-
mented by the \$100 the school board
gives them, will afford them a place,
where they may put into practice the
theories they study in their classes.
The ultimate fate of any race is in
its own hands. The real race prob-
lem is industrial, and will be solved
when the colored man makes a place
for himself in the industrial system,
contributing to the wealth production
of the country; and he must make
that place for himself; the white man
cannot make it for him and put him
in it.

AUSTRIAN SPORTS.

Has the trailing of lions, tigers and
elephants in Africa satisfied the ap-
petite of Colonel Roosevelt for ex-
citement, or has the presence of the
women of his family tempered his
zeal for sport? We cannot believe
that this mighty hunter has suddenly
become timid; yet today he refused
the invitation of Frau Josef to hunt
woodcocks in the Imperial park. Why
he should shrink from an encounter
with the feathered fauna of Europe,
after facing the hairy game of darkest
Africa we cannot understand, espe-
cially since royal huntersmen are
guarded by regiments of foot and
horse soldiers. Possibly in the pro-
tecting shade of the tropical jungle
the colonel was not as brave as he
pretended, and he feared his trem-
bling might be witnessed by the brave
emperor and his warriors hosts when
he stood face to face with his first
woodcock, pitting the accuracy of his
aim against the natural ferocity of
the wild bird. We cannot tell; but
we can surmise wonderful treats in
store for other great Americans,
when they visit Austria and meet the
emperor. We can see Commander
Peary heading an expedition in the
royal park in search of spring beau-
ties and trailing arbutus; Wilbur
Wright being swung in a hammock
by a minion of the royal household,
and J. Pierpont Morgan with pulse
beating high, risking a nickel ante
at auction penochle.

FOUNDATIONS.

Let us be up-to-date in everything!
This is the cry of the day; the sound
that rises above the tumult of the
world.

mad scramble for the vanities of an
hour; that dies out in a note of de-
spair, which, unfortunately, is
drowned by the tumult and the same
old cry from new throats.

We want our town to be up-to-
date. How many express the wish
that the business of their home town
be established on enduring founda-
tions of honest values and fair deal-
ing, that its products may add to the
world's wealth and the sum of human
happiness; that its public funds be
properly administered; that the bur-
den of taxation be equitably distrib-
uted; that the comfort and health of
its inhabitants be intelligently se-
cured and protected? One may think
that these things go without saying,
but they do not. We emphasize too
much the ephemeral, we strain after
something other than permanence.
We are beginning to feel the lack of
this element in our work; but we do
not yet apprehend it.

Our ethics is wrong. We are head-
less of our foundations. A corner
lot is sold for a thousand dollars a
front foot; a building is erected on
it at a cost of a quarter of a million
dollars; the building is up-to-date,
an ornament to the city; but do we
stop to think that only the value of
the real estate under it made the
skyscraper a financial possibility;
and that the firmness of the ground
had much to do with the value of it?
By and bye the building will give way
to a new one to meet the future
modern demands; but the ground
will be there, unchanged.

A house built on sand will not
withstand the floods; which is an-
other way of saying that no logic,
however keen of itself, premised on
falseness, will last. All human rea-
soning must assume something as a
starting point. If what is assumed is
true and the reasoning logical, the
result will be truth; but beware of
artificial foundations cleverly con-
cealing unstable ground beneath;
for, no matter how well devised the
superstructure and how sound the
walls, it must inevitably collapse un-
der unusual stress.

We are different in our ways and
environments from our forefathers,
and we must rebuild much of our
thought structures to suit the de-
mands of the times; but there is no
reason to change the sound founda-
tions on which the ages have builded.
Because a building is old and out-of-
date is no sign that the real estate
under it is not valuable. Those who
would cling to the old habits of
thought, cannot expect to hold a fol-
lowing today; and those who would
abandon the truth, because the times
have changed, are blind leaders of
the blind.

Give us books and sermons that
provoked thought; music that inspires
pure emotions; art that stimulates
imagination, and time for medita-
tion. These cultivate individuality
and keep the mental functions in
normal condition. Five minutes a
day devoted to rational literature
will save a man from the "isms" and
"isms" of the moment; but "rational"
doesn't comprehend popular pseudo-
scientific works, whose chief bid for
attention is that they are "up-to-
date." They are out of date before
they have time to reach them.

Let the fads, fancies and fallacies
rise and fall, while we maintain a
permanent foundation on the funda-
mental, time tried truths, and build
that which will be of practicable serv-
ice in our time, rather than merely
satisfy the glance of a careless eye.

STORM NEWS

(Continued From Page One.)

of the Mayfield road, said that he
lost at least 400 pines. Damage to
the fruit trees was heavy, as the
leaves and blossoms and young fruit
was knocked off by the hail.

Tobacco beds also suffered, and
farmers report that the cannaes over
the beds was ripped into shreds by
the hail stones. The hail fell in
such quantities that it looked like
midwinter until the hail stones were
melted.

At Meibler the rainfall was heavy
and hail fell, but no serious damage
is reported. The Mayfield creek is
over the road, but the bridge is in
place and is being crossed.

Damage on River.
Damage to the extent of several
thousand dollars was done to river
craft and property about 4 o'clock
this morning during a heavy wind
storm that threatened all boats in
the local harbor for a short time.

The heaviest loss was sustained by
the Paducah & Illinois Ferry com-
pany and is estimated at between \$2-
000 and \$5,000. Several runaway
barges were carried swiftly down-
stream and crashed into the cradles
of the Illinois Central railroad in-
cline at the foot of Campbell street,
causing much damage. The West
Kentucky Coal company and the Ayer
& Lord Tle company fleets did not
sustain any loss.

Wind began blowing with great ve-
locity about 2:30 o'clock this morn-
ing and the crews of the boats were
aroused. Danger increased with the
rapid rising of the Tennessee river,
which rose three feet last night. The
towboat Nellie, owned by the ferry
company, was torn from her moor-
ings with the fleet near the Riple-
berger mill property. Clint Obidles,
her watchman, jumped into a yawl
and grabbing one of the boat's lines
rowed to the towboat Chaney Lamb
and made it fast, saving the Nellie
from being carried downstream.

One fuel flat and three barges in
the fleet were blown down the river,
and three of the barges sank between
the Illinois Central incline and Me-
tropolis. The fuel flat was captured
by the harbor boat Harth, which did
honor work in saving many pieces.
Fourteen other pieces from the upper
Tennessee were seen to pass down
about 4 o'clock and the Harth suc-
ceeded in catching some of them. She
was in charge of Capt. Mud Mullen.
Several log rafts and shantyboats
were carried down with the wind and
swift current.

Twelve barges of coal and four
fuel flats belonging to the West Ken-
tucky Coal company and moored at
the Tennessee point were saved from
breaking away. The crew at the
Ayer & Lord Tle company's fleet
managed to keep the fleet tight and
there was no damage sustained.
Barges crashing into the Illinois Cen-
tral incline cradles damaged them
heavily and they will be out of com-

mission several days until repairs are
made. Passengers and baggage will
be transferred on the tugboat to and
from Hookport, while freight trains
will be compelled to make a detour
via Cairo.

The sunken barges belonging to
the ferry company are valued at be-
tween \$3,000 and \$5,000. The
storm was one of the most treacher-
ous that rivermen have experienced.
The breaking away of craft is attrib-
uted to the rising stream more than
to the wind velocity.

The wharfbot and steamboats
moored near it were not damaged al-
though precautions were taken to
prevent them from breaking away.

Traffic Interfered With.
Traffic on both the Illinois Central
and the Nashville, Chattanooga &
St. Louis railroads was interfered
with by the heavy rains. On the Illi-
nois Central railroad it was worst.
Fast passenger and mail train, No.
143, due in Paducah at 2:52 o'clock
this morning from Louisville, had not
arrived this afternoon, owing to it
being impossible to cross the trestle
at Little Cypress. Trains on the Illi-
nois Central from the west and south
arrived slightly behind time. The
crows report heavy rains but little
damage is reported.

Heavy rains between Iowa and Illo-
nois delayed the Memphis train of the
Nashville, Chattanooga & St. Louis
railroad till nearly afternoon. The
last of the track was washed away,
but workmen were sent out early to
repair the damage. No serious dam-
age was reported to the trestles.

At Little Cypress.
Little Cypress, Ky., April 16. (Spe-
cial.)—Little Cypress was the center
of a deluge of rain last night, and
today water is over many acres of
land. Little Cypress creek is out of
its banks, and it is almost impossi-
ble to travel over the roads.

One concrete abutment of the Il-
linois Central trestle over Little Cy-
press creek is broken, letting down
the bridge, and traffic is stopped.
Workmen of the railroad began re-
pair work this morning, but it will
hardly be possible for trains to cross
before tonight or tomorrow. The
trestle is 100 feet long. The heavy
concrete abutment cracked and gave
way early this morning under the
strain of the water.

THE PICTURE OF HEALTHY KIDNEYS

This father is living and enjoying
life. He has no backache. He has
strong, healthy kidneys and bladder.
He sleeps well because he never has
to get up in the night to pass a few
drops of scalding urine. He is not
worrying about the constant danger
of weak kidneys belonging to the
dreadful, incurable, Brich's disease.
His face shows health, no puffy circles
under the eyes, no rheumatic twinges,
no stiff, sore, aching joints, no nerv-
ousness, no headache, no tired, worn-
out feeling after a day's work. His
system is strong, his head is clear,
his eye keen, his muscles hard, his
temper good, his future bright. He is
enjoying life because he is free from
all the terrible suffering of
weak, out-of-order kidneys and blad-
der; free from rheumatism.

No one who is afflicted with out-of-
order kidneys or bladder will deny
that this father is indeed blessed, and
yet you, too, if your kidneys are
weak or out of order, or if you are
suffering from rheumatism, can be
just as happy, just as free, just as
healthy, as bright, cheerful, jolly, con-
tented as he.

Try a few doses of Barkola Globes.
Begin right to-day and just see how
quickly your backache will go and
how well you can sleep. Just see for
yourself how well your kidneys will
act, see how quickly the rheumatic
pains will clear out and how quickly
your limbs and joints will limber
up. Let a little sunshine into your
life. Health and happiness are cheap
at fifty cents. There is no risk.
Barkola Globes will not fail.

Just drop in at Gilbert's Drug
Store, Fourth and Broadway, or
at some other good drug store, and
get a box or send fifty cents to the
Old Port Chemical Co., Fort Wayne,
Ind. Every moment of delay just
means that much longer to suffer.

Way not smart right now, right this
minute, to get well?

Literary Musings.
The saddest words of tongue or pen are these: "The editor regrets, etc."
Who steals my books steals trash. Ask the critic.
All is not well that ends well—some editors insist on happy endings.
A check deferred maketh the poet sick.
Train up a heroine in the way she should go, and when the rattling, swishing climax comes, she will not lose her pretty red-gold head.
There is no new thing between the cover in eighteen colors by Paletta-Lapper, and the full page ad. of the Cold Kettle Flour Corporation on the back of the magazine.
A living space writer is better than a dead producer of classics.
Sonnet upon sonnet, rondeau upon rondeau; here an acceptance—there is a rejection.
Man shall not live by his literary work alone.
Consider the headlines in the Table of Contents how they get a dollar a word; they tell not in singlehanded phrases, neither do they utter a recent-word idea into six thousand words of heavy prose.
Rejection is an adom.
It is a wise poet that knows his own weak feet.
A plot a plot! My inkstand for a poet!

He Had Forgotten Her.
A Brooklyn minister was recently approached on the street by a young woman who inquired whether he were not the Rev. Dr. Blank, says the San Francisco Argonaut.
"Yes," said the minister, who seemed at a loss to identify the young person.
"Don't you remember me?" asked the girl, laughingly.
"I am afraid I don't," said the man, apologetically. "Why you not give me just a little hint?"
"Well," continued the young woman, "I certainly think that you ought to remember me, even if it has been so long a time. Why, Dr. Blank, you baptised me here in Brooklyn, before my parents moved West. You don't mean to say that you've forgotten me out right?"
Thinking never tires those who walk.

Her Economy.
"Woman is very unreasonable," said a veritable New Hampshire justice of the peace. "I remember that my wife and I were talking over our affairs one day, and we agreed that it had come to the point where we must both economize."
"Yes, my dear, I said to my wife, 'we must both economize, both!'"
"Very well, Henry," she said, with a tired air of submission; "you shave yourself and I'll cut your hair!"—Everybody's.

A girl isn't necessarily a jewel because she is set in her ways.

To Be Rosy and Well

The right kind of food—no drugs—is necessary.

Grape-Nuts

The world-famous food scientifically made of whole wheat and barley, contains the blood-making, tissue-building, elements of these health grains, including the natural phosphate of potash (grown in the grains) which nature uses in making new brain and nerve cells.

In the manufacture of Grape-Nuts the starch of the grains is predigested—changed to a form of sugar which is quickly absorbed by the blood, and the user soon shows better color and increased vigor of body and brain.

A few weeks' regular use of Grape-Nuts will show anyone.

FARNER'S WIFE HAS HEAP TO DO

But When She Is Sick, Everything About the House Goes to Back and Forth.

Darham, N. C., "For four months, I could not stand on my feet, to do anything much," says Mrs. J. M. Shepherd, of this city.

I am a farmer's wife and have a heap to do, and since taking Cardul I do most of my work.

You don't know half how much I thank you, for your Cardul Home Treatment. It has done me more good than all the doctors.

I wish all women, who suffer with womanly troubles, would treat themselves with Cardul, as I have.

The herbs, and other vegetable ingredients, used in the manufacture of Cardul, the woman's tonic, have a specific, healing, soothing, building, remedial action, on the womanly organs and constitution.

The medicine prevents unnecessary pains, such as headache, backache, side ache, dragging sensations, etc.

It also acts as a general system tonic, for weak, tired, worn-out women, who find their work a daily grind, that sometimes seems unbearable.

Cardul lifts you out of the pains and weariness, caused by female weakness, and helps you to see and feel the bright side of life.

Try Cardul.

IS M'CREARY'S

IF HE WANTS IT, SAYS JUDGE W. H. YOST.

Johnson sentiment is dying out—Says O'Rear Will Not Be the Republican Candidate.

Judge William H. Yost, of Madisonville, arrived in the city this morning and is stopping at the Ruid House.

Judge Yost is here on legal business, having two or three important cases in court.

When asked as to what he thought of the approaching gubernatorial race he said that the publication of the centrist announcement of Senator James H. McCreary was certainly very gratifying to the Democrats in Western Kentucky.

He said he believed that if McCreary did formally announce he would receive the nomination Judge Yost said that some time ago there was a prevailing sentiment for Ben Johnson but that this has begun to die out and for the past days he has heard many expressions from well known politicians desiring themselves for McCreary. Judge Yost also stated that a friend who was in Frankfort last week had informed him that ex-Governor Beckham had stated that he would support McCreary.

Judge Yost says that he does not believe that Judge O'Rear will get the Republican nomination, as he will have all the big corporations lined up against him because they recognize him as a terror to their schemes.

S.S.S. CURES BLOOD HUMORS

The skin is provided with countless pores and glands, through which an evaporation is going on continually, day and night. This is Nature's method of regulating the temperature of our bodies, and preserving the natural appearance of the skin. These pores and glands are connected with tiny veins and arteries through which they receive from the blood the necessary nourishment and strength to preserve their healthy condition.

Just as long as the blood remains pure the skin will be free from eruptions, but when the blood becomes affected with acids and humors its nourishing and healthful properties are lost, and its acid, humor-laden condition causes inflammation of the delicate tissues and fibres of the pores and glands, and the effect is shown in Eczema, Tetter, Salt Rheum, Pimples, Rash, etc.

The humors and acids get into the blood through a deranged and inactive condition of the system. Those members whose duty it is to collect and expel the refuse matters of the body fail to properly do their work, and a surplus amount of waste matter is left in the system to sour and ferment and be absorbed into the blood. Salves, washes, lotions, etc., are valuable only for what ability they possess to keep the skin clean, allay itching and temporarily reduce inflammation. They cannot cure skin trouble because they do not reach the blood.

S. S. S. cures Skin Diseases of every character and kind because it is the greatest of all blood purifiers. It goes into the circulation and removes the acids and humors that are causing the trouble, builds up the weak, acid blood and completely cures Eczema, Acne, Tetter, Salt Rheum, Pimples, Rash, and every variety of skin eruption and affection. When S. S. S. has driven out the humors and acids from the blood, every symptom passes away, the skin is nourished with rich, healthful blood, the tissues are relieved of all inflammation, natural evaporation again takes place and the skin becomes soft and smooth and perfect. Look on Skin Diseases sent free.

PRINCIPALS ARE CHANGED AROUND

PRIN. ROSS PROMOTED AND THREE NEW ONES ELECTED.

Colored High School Will Have Physical and Chemical Laboratory at Once.

PAY MOST FOR THEMSELVES.

Asst. Supt.—J. T. Ross.
Washington—W. H. Singer.
Franklin—H. L. Donovan.
Jefferson—J. M. Calvin.
R. E. Lee—Emma Morgan.
Longfellow—Guy Whitehead.
McKinley—A. Crabbe.
Whittier—B. O. Hinton.
Lincoln—G. W. Jackson.
Garfield—T. D. Hibbs.

A general shifting of principals of the school buildings was made last night by the school board, upon the voluntary retirement of professors M. E. Ligon and A. M. Ragsdale, and the promotion of Prof. J. T. Ross to be assistant superintendent with no regular assignment. Prof. W. H. Singer, principal of the high school and G. W. Jackson and T. D. Hibbs, principals of the colored schools, were allowed to remain as before. A. Crabbe and B. O. Hinton, of the Bowling Green Normal school, were elected to the McKinley and Whittier buildings, respectively and H. L. Donovan was transferred from the Whittier school to the Franklin school at an increase; J. M. Calvin was transferred to the Jefferson school at an increase; Miss Emma Morgan was transferred from the McKinley school to the R. E. Lee school at an increase; Prof. Guy Whitehead, of the Washington school, was promoted to be principal of the Longfellow school, while Professor Ragsdale, Prof. Ligon was principal of the Franklin school. He will attend Columbia college and work for degree next year. The board on recommendation of the committee on teachers and course of study adopted the following resolutions: Resolved, that we, the committee on teachers and course of study and officials of the schools, regret that M. E. Ligon, principal of the Franklin school, declines re-election as principal. It is our desire to retain him and we regret to lose him from our schools. In the two years that he has served as principal he has proven himself a man of superior worth. The board offered Professor Ragsdale a recommendation.

Prof. J. T. Ross, who has been in the public school 57 years, was relieved of the arduous routine of responsibilities of the principalship of the high school, because the board felt it an imposition on the strength of a man of his years, and in recognition of his long and faithful service he was given a roving commission under direction of the superintendent, at an annual salary, instead of nine months.

More Boys Than Girls.
Superintendent Carnagey read his reports for February and March, indicating a growth in the schools. He brought out the unusual fact that during March there were more white boys than white girls in the schools; boys 1,195, girls 1,183. There were 323 colored girls and 329 colored boys. The daily attendance over February was 85 and over any previous month 162. Superintendent Carnagey also read a full report of the meeting school year at Indianapolis, which was received and filed.

Colored Schools.
He presented a petition from the pupils of the Lincoln (colored) high school for a physical and chemical laboratory. These children have raised among their own people \$120.55 and ask the board for \$100 to supplement the sum, together with the conversion of part of the second floor hall into a laboratory table, a gas attachment and a drain, as there is water in the room and the schools have the necessary furniture. Trustee Pettit, for the library and laboratory committee, recommended immediate installation of the laboratory would be an incentive to the return

Change in Rules.
At the suggestion of Chairman Ferguson, of the rules committee, the rules committee was instructed to report at next meeting a resolution, changing rule 3, so that a quorum shall consist of a majority of the qualified members of the board instead of a majority of the 12 members-elect, as at present. \$3.50 Recipe Cures Weak Kidneys, Free

Hollows Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Back.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the painful, dribbling, straining, or too frequent passage of urine; the fore and back-of-the-head aches; the aches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unusual short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you \$7.50 for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, 1035 Look Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-quickening power. It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

of the pupils next year. The board adopted the recommendation and gave the necessary authority.

Commenting on the interest of the colored pupils Professor Garfield said the Lincoln school pupils had raised over \$400 and the Garfield school over \$200, which was applied on furnishings for school libraries painting and varnishing desks and the purchase of new pianos. In a five week campaign the Lincoln school raised \$121 for the laboratory, Calde Murphy's, 46 Seventh and Eighth grade pupils turning in \$75 and the high school \$16.

Chairman Ferguson of the schools committee said he had visited the Lincoln school and found it crowded, but he and the principal agreed that they can get along the remainder of the present school year. He recommended that something be done to relieve the congestion before next year.

Change in Rules.
At the suggestion of Chairman Ferguson, of the rules committee, the rules committee was instructed to report at next meeting a resolution, changing rule 3, so that a quorum shall consist of a majority of the qualified members of the board instead of a majority of the 12 members-elect, as at present. This is to

relieve the difficulty in securing a quorum for the transaction of business when the board is depleted by resignations.

Trustee Saltzger of the committee on boundaries was authorized to let the contract for making three alphabetical lists of the census returns at a cost not to exceed \$50.

Professor Carnagey was authorized to install one simple bubble fountain in the Washington building as an experiment.

Sanitary work at the Jefferson school was ordered investigated.

The Finance committee reported balance on hand April 1, 1910, \$12,199.50, payroll for March \$5,257.39, bills allowed \$15.75, total disbursement for March \$5,799.11.

A duplicate warrant was ordered issued to Isaman Coal company for one which was lost, upon the company furnishing an indemnity bond to cover the amount.

Treasurer Walters furnished the Finance committee a report of back taxes due the board for five years, subtracting amount advanced by the city last year for plumbing at the two school buildings. The total is \$761.30.

A resolution was adopted, endorsing the bill introduced by United States Senator Owen, providing for a national health officer to be a member of the president's cabinet. Copies of this resolution will be forwarded by Dr. H. P. Sights to the Kentucky senators and congressman Ollie James.

Superintendent Carnagey read a proposition from the Standard Oil company for floor oil, which he said the superintendent of buildings, janitors and principals reported does prevent dust in sweeping.

UNDER THE DOGWOOD BOUGHS.

Betty sang, arch Lady Betty—
All in a gown of blue—
A song of bird and sprigtime gladness,
And her eyes' soft hue
Matched her lovely gown of blue.

The song was sweet, but Lady Betty
Sweeter far were you,
With your brows hair softly waving
'Neath your hat with bow of blue,
Such a bonny Betty you!

Behind, above her, as she stood
there,
Shone the whole song through,
Soft with radiance in showers
From boughs of sunny dogwood
flowers,
'Gainst a wall of deeper blue.

Betty thought she was but singing,
As she came to do;
But while the tones came gladly
ringing,
Eyes were drinking in her fairness,
She was painting pictures, too.

Lovely pictures of the springtime,
So much beauty, art and grace!
By the time the song was finished
Hearts had answered to the magic—
Springtime glory lit each face.

SHE IS ALL BUT QUEEN

In all affairs of weight, whether of war, politics or business, beautiful women have always exerted a mighty influence. This subservience of the world to feminine loveliness is seldom admitted by the sterner sex, but it is there just the same and no one realizes it better than man, mere man. He is a daily worshipper at the shrine of Venus and a passively willing prisoner to her charms. Pay- in regular and magnificent tribute has become a habit with him.

NEWBRO'S HERPICIDE

MAKES BEAUTIFUL HAIR

To be considered beautiful it is not essential that a woman have a pretty face. Let her pos- sess a wealth of natural fluffy hair and no one will ever dispute her right to being called hand- some. Good hair softens the lines of the face and gives it an attractiveness which cannot be denied. As a savior of woman's beauty Newbro's Herpicide stands alone, no its makes snappy, glossy hair possible for all.

Dull, brittle, lack-lustre hair is mute evidence of the workings of the dandruff germ. Herpi- cide is the one remedy which may be depended upon to kill the germ that causes dandruff and to prevent the hair from falling out. Don't let anyone sell you something "just as good." You want Herpicide, the Original Herpicide.

Kills the Dandruff Germ Stops Falling Hair

The immediate effect of a regular use of this remarkable hair remedy is to cleanse the scalp, rid the itching and induce a condition of health in the follicles, not already atrophied, so that the hair may resume growing.

Wonderful and satisfying indeed are the results which follow regular applications of Newbro's Herpicide.

There is no cough medicine so pop- ular as Foley's Honey and Tar. It never fails to cure coughs, colds, croup and bronchitis.—Gilbert's drug store.

Perhaps nothing worries a woman more than to have something to tell and no one to tell it to.

There is a Wonderful Difference

between the light afforded by an ordinary carbon incandescent and the brilliancy of our new General Electric MAZDA lamp. The latter radiates two and one-half times as much light with the same amount of electric current.

A 40-Watt MAZDA Affords Twice the Light

of the 50-watt carbon lamp now in general use and costs one-fifth less to burn. We recommend its use to our customers as it more than cuts their light bills in two, making electric light so inexpen- sive that no home, however humble, and no store, however small, can afford to be without it.

Ask us to show you the new General Electric MAZDA lamps and clusters.

Brenlin The New Window Shade Material

Holland shades show shadows and let in too much "glare" because they haven't body enough.

Opaque shades "crack" because they are made of muslin filled with chalk to keep out the light, and as the shades are handled this chalk breaks.

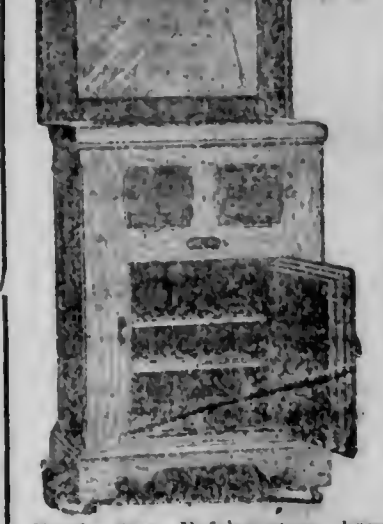

Brenlin is a dull-finish material without filling of any kind, but with a natural body that makes a perfect hanging shade. All colors.
